

POTTAWATOMIE COUNTY CONSERVATION DISTRICT

501 State Street, PO Box 246, Westmoreland, KS 66549 (785) 457-3398 Ext. 3

Nutrient Management – Landowner Agreement

I understand that 100% of the cost of my basic soil test(s) is to be paid through the Nonpoint Source Pollution Control Program administered by the Pottawatomie County Conservation District. A landowner (under only one entity) may submit up to twelve (12) cropland soil samples of which two (2) are lawn and garden soil samples to be tested each year.

The funding is provided by the State Water Plan to improve water quality. Compliance with KSU or certified laboratory fertilizer recommendations is required. Fertilizer application is not to exceed the recommended amount by more than 10 percent.

By signing this agreement, I also acknowledge the test(s) submitted for payment are for areas within Pottawatomie County.
